

HAVING IDEA? make it HAPPEN!

what is it ABOUT?

Have you ever wondered how is it to become an entrepreneur? And thought it probably is a very tough challenge? In terms of finances, human resources and above all of that the right skills? Yes, it's no bed of roses, but with the right mindset and set of skills it certainly is worth of trying. We, the partners from France, Hungary, The Netherlands and Slovakia, with help of Erasmus+ programme, set an aim to help you with that.

At the beginning there was an idea of how to help young people to find a satisfactory job. We could not create more jobs, but as entrepreneurs ourselves and besides that having a lot of experience in creation of trainings and situation on the labour market, we decided to create a training programme aimed at development or improvement of entrepreneurial skills. The training programme is based on discussion roundtables and questionnaires implemented in each partner country (FR, HU, NL, SK). We also took in account the study on entrepreneurial opportunities of young people in EU.

We believe the training will help you to tackle the challenges, will improve your skills and you become more confident in starting your own business.

WHO IS IT FOR?

The training programme is suitable for everyone who would like to improve their entrepreneurial skills. But we created it with following target groups in mind.

15-29 years old

training organizations & schools

employers

counselling centres
